

EI - SERIES HEAVY DUTY SHOCK ABSORBERS FOR CRANES

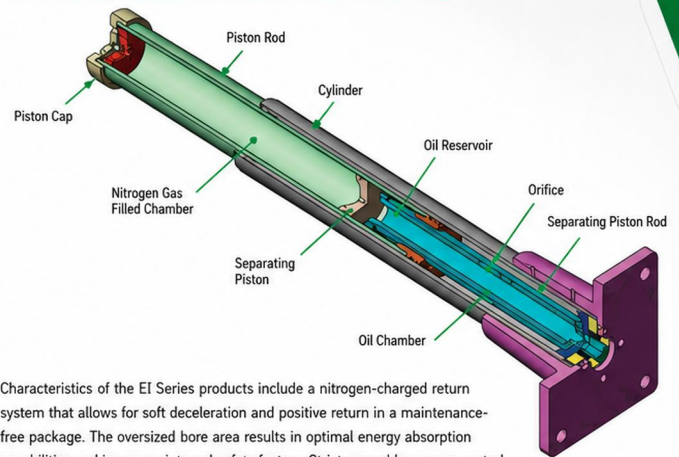

ESSTEE
Engineered for Safety. Built to Last.

- MAXIMUM SAFETY
- HIGH ENERGY ABSORPTION
- MAINTENANCE FREE
- LONG LASTING DURABILITY

- HIGH ENERGY ABSORPTION
- NITROGEN CHARGED RETURN SYSTEM
- SMOOTH & SOFT DECELERATION
- INCREASED SAFETY FACTORS
- RUGGED & RELIABLE PERFORMANCE

HEAVY INDUSTRY EI SERIES SHOCK ABSORBERS

Characteristics of the EI Series products include a nitrogen-charged return system that allows for soft deceleration and positive return in a maintenance-free package. The oversized bore area results in optimal energy absorption capabilities and increases internal safety factors. Strict assembly process control and product testing ensure the integrity of design and product performance.

IDEAL FOR CRANE APPLICATIONS
